PROFESSIONAL SUMMARY

Passionate Information Technology student specializing in Artificial Intelligence, Machine Learning, and Full Stack Development. Experienced in building scalable AI-powered applications using Generative AI, Retrieval-Augmented Generation (RAG), Knowledge Graphs, Neo4j and modern web technologies. Seeking challenging internship opportunities to contribute to innovative products and solutions.

TECHNICAL SKILLS

PROGRAMMING

- Python
- Java
- JavaScript
- TypeScript
- SQL

FRONTEND

- React
- HTML5
- CSS3
- Tailwind CSS

BACKEND

- Node.js
- Express.js

DATABASE

- MongoDB
- Neo4j

AI & ML

- Google Gemini API
- Retrieval-Augmented Generation (RAG)
- Knowledge Graphs
- OCR
- Prompt Engineering
- Generative AI

TOOLS

- Git
- GitHub
- VS Code
- Postman
- Vercel

KEY PROJECTS

1. Industrial Knowledge Intelligence Platform

GitHub

Live Demo

AI-powered enterprise platform that transforms industrial documents into actionable insights using Retrieval-Augmented Generation (RAG), Knowledge Graphs, OCR, Multi-Agent AI, and Google Gemini.

- Built enterprise document intelligence platform using React, TypeScript and Express.js.
- Integrated Google Gemini API for contextual question answering.
- Implemented OCR and document parsing pipeline for extracting structured information.
- Used Neo4j Knowledge Graph to model document relationships and improve retrieval accuracy.
- Implemented RAG pipeline to generate accurate AI responses with source citations.
- Built Multi-Agent AI system for summarization, classification and report generation.
- Delivered interactive dashboard for search, analytics and executive reports.

2. MedConnect Healthcare Platform

GitHub

Full stack healthcare management application for doctors and patients.

- Developed a responsive frontend using React and Tailwind CSS.
- Built secure authentication and role-based access for doctors and patients.
- Implemented appointment booking, doctor management and patient records.
- Created dashboards with analytics and real-time updates.

EDUCATION

Ratan Tata Maharashtra State Skills University
B.Tech in Information Technology

Pune, India
2025 - 2028

CERTIFICATIONS & ACHIEVEMENTS

CERTIFICATIONS

- Deloitte Data Analytics Job Simulation
- AWS Cloud Foundations
- SAP ABAP Programming
- AICTE ATAL FDP
- Fourise Internship Program
- Java Programming

ACHIEVEMENTS

- Built AI-powered applications using Generative AI.
- Developed and deployed multiple full stack web applications using React, Node.js and modern technologies.
- Participated in AI Hackathons and coding challenges.
- Built and deployed Industrial Knowledge Intelligence Platform.
